

# Fall Regional Race

Six Formula Fords, two Formula Mirages, and Bob Sato's Formula Continental started our open wheel race, with the Mirage cars of Lee Jensen and Howard Ruth leading the field. Howard unfortunately spun on corner one, allowing Lee and Bob Sato to easily pull away from the pack. An excellent recovery and determined driving allowed Howard to finish the race in second place.

The Ford race was dominated by Bill Clutter who led the race from start to finish. The best race of the day was between Tom Burke and Tom Ito who

changed places constantly until the Chicane corner go the best of Ito. All in all it was an good race.

By the time the race started our closed wheel filed dropped to three cars, all in different classes. Iain Waugh easily pulled away from the SS and IT cars and led the entire race.

This was the first race in recent memory without Spec Racers, and the field of twelve cars was our smallest of the year. But there is more to racing than just the number of cars. We did have some great races and a good time was had by all.
